

LinkSquare®

Scan anything. Scan anywhere.

LinkSquare is a pocket-sized spectrometer device suitable for everyday use. Every object in the world that reflects light can be scanned with LinkSquare and be potentially identified by its unique spectral fingerprint.

See what your naked eye might miss.

LinkSquare uses machine learning algorithms to detect differences in objects' spectral fingerprints and determine a myriad of properties including but not limited to authenticity, identity, degree of freshness, sweetness, and overall quality.

**Stratio designs,
develops,
and manufactures
infrared technologies
to help people reveal
things that are
hardly visible,
increase process
efficiency,
and enhance public
safety.**

LinkSquare Device Specifications

Wavelengths	LinkSquare 1	450-1000 nm
	LinkSquare NIR	700-1050 nm
Weight	57g / 2oz	
Connectivity	Wi-Fi	
Battery	Active	< 1000 scans
	Idle	< 72 hours
Charging	Micro-USB cable	

About Us

Stratio, Inc. was founded in 2013 as the culmination of a decade of work done at Stanford University.

We aim to bring innovation to countless niches of our lifestyles through our infrared spectrometers, infrared imaging applications, and proprietary infrared image sensor technologies.

Products and Services

Packages

You can mix and match our hardware and software options – the LinkSquare app provides numerous life-enhancing applets, while our collector software helps collect and view the spectral data of whatever matters to you.

LinkSquare App

Collector Software

For those who want to make their own software or platform around LinkSquare, we provide APIs, a software library that provides connectivity and data acquisition with LinkSquare devices.

Basic Package

LinkSquare 1 : \$549
LinkSquare NIR : \$649

- ✓ Spectrometer
- ✓ LinkSquare App
- ✓ LS Collector*
- ✓ AI Platform**
- ✗ APIs

Professional Package

LinkSquare 1 : \$3,999
LinkSquare NIR : \$4,099

- ✓ Spectrometer
- ✓ LinkSquare App
- ✓ LS Collector*
- ✓ AI Platform**
- ✓ APIs

* Windows-, MacOS-, iOS-, and Android-compatible
** Subscription to AI Platform required

LinkSquare CAN TELL YOU...

Which one is SWEETER?
Is this FRESH?
Is there a BRUISE?

Accessories

LinkSquare can be even more powerful when equipped with our accessories.

Liquid Station

Scan liquids easily and obtain accurate results with minimal external influence. Simply pour liquid into the Liquid Station and slide in your LinkSquare to scan!

Services

Our AI Platform provides a DIY applet creation tool – feed your own spectral data with a subscription and make your own applet! Or, reach out to us for a custom-built applet from the ground-up. Check out our AI Platform at <https://ai.linksquare.io>.

AI Platform

End-to-End Solution

LinkSquare is ready to help enterprises or agencies in fields such as:

Agriculture

Manufacturing

Fine Jewelry

Distribution

Customs & Law Enforcement

Pharmaceuticals & Healthcare
